

Feasible Square Length Over Time

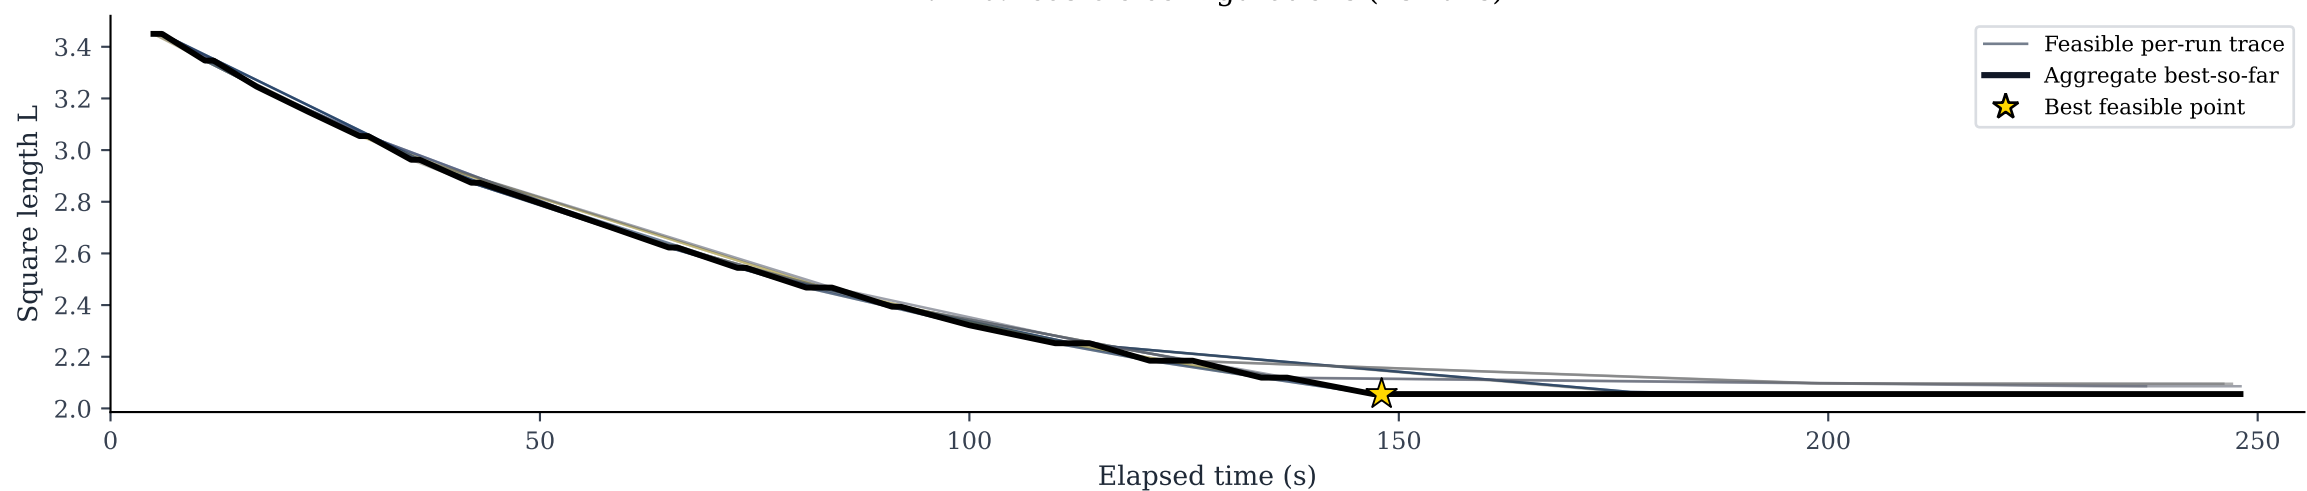

(a)

N=5: feasible configurations (15 runs)

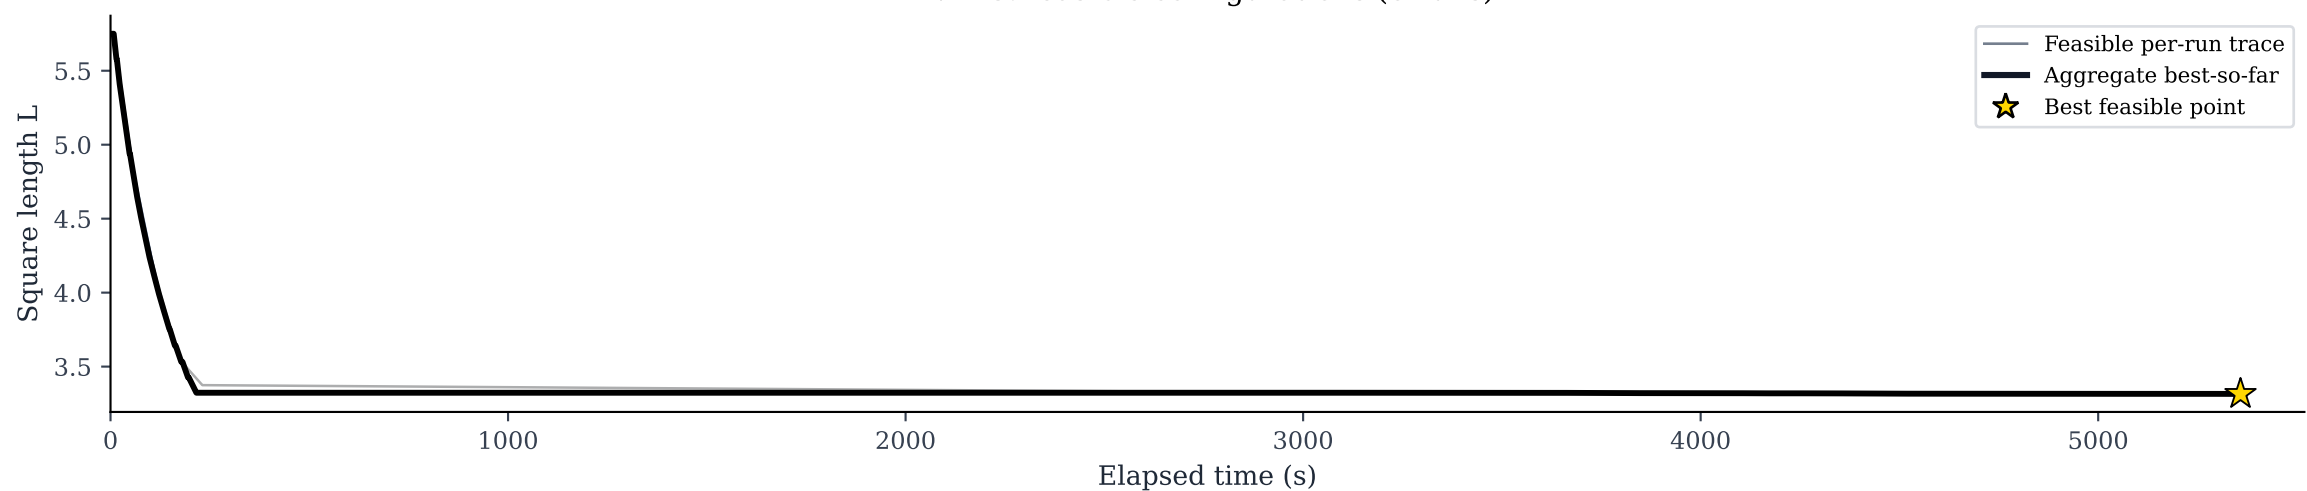

(b)

N=10: feasible configurations (15 runs)

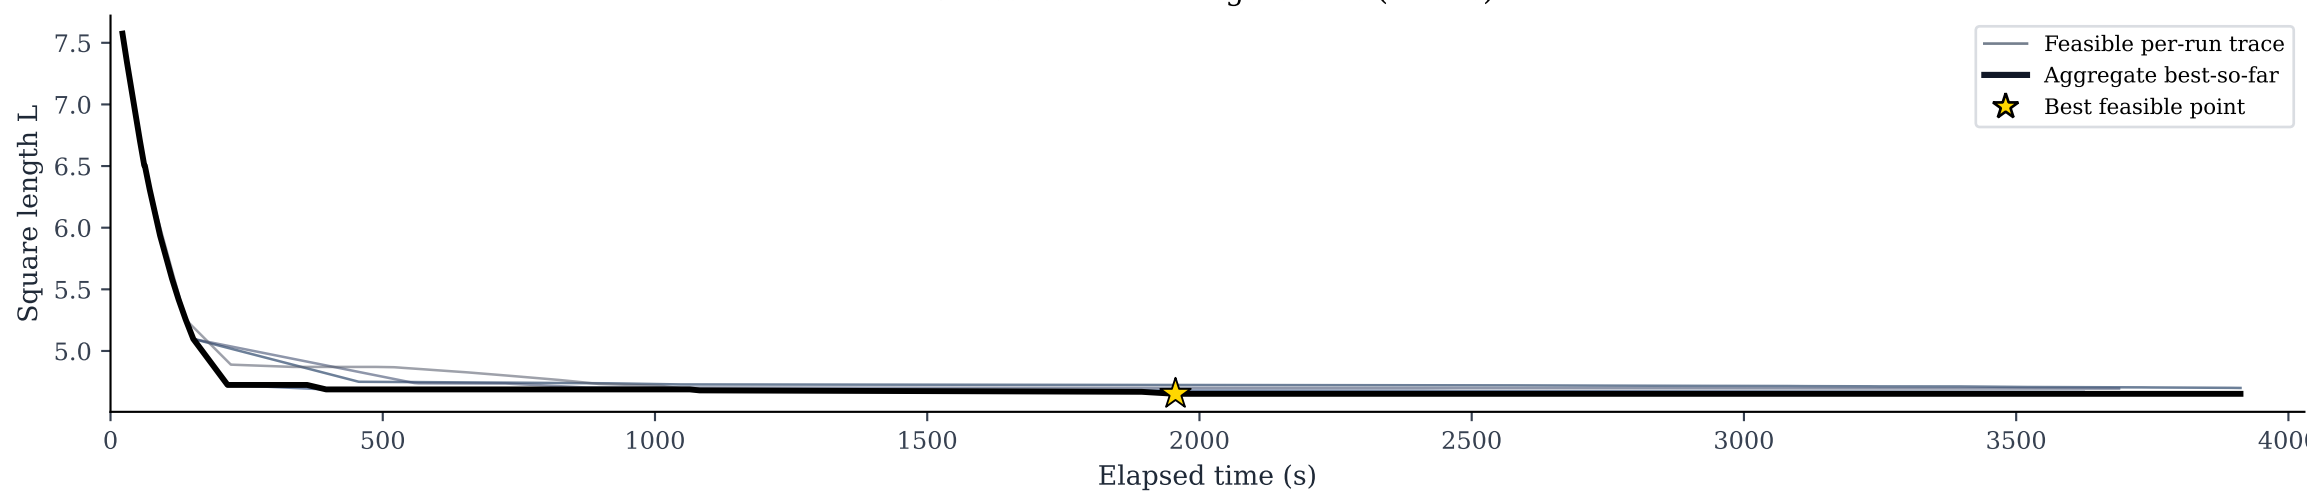

(c)

N=25: feasible configurations (6 runs)

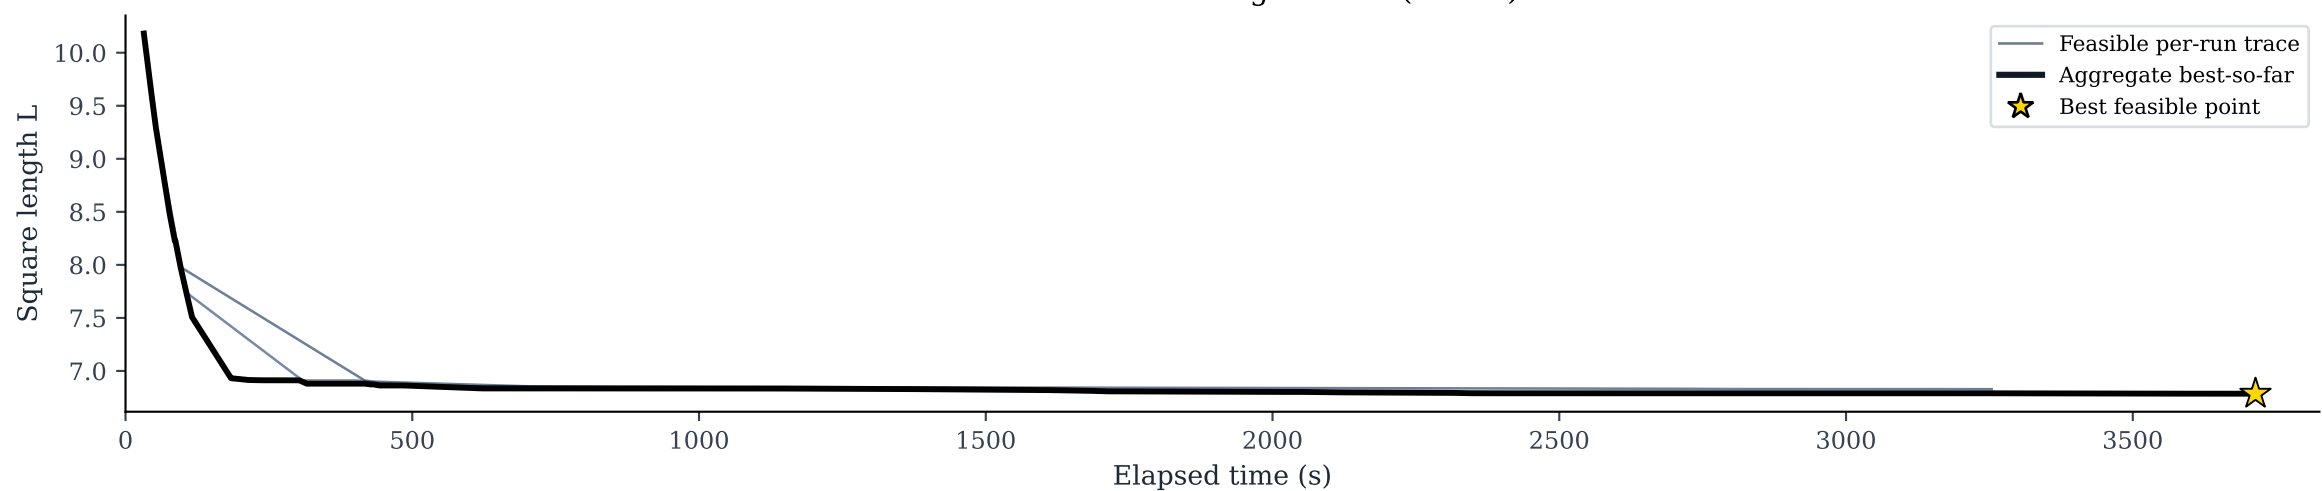

(d)

N=50: feasible configurations (4 runs)

(e)

N=100: feasible configurations (3 runs)

(f)

N=200: feasible configurations (1 runs)
